

PAMMINA SAI SWAROOP

+91 7013434594 | pamminasaiswarup@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Aspiring Software Engineer with strong interests in **Full Stack Development, Cloud Computing, and Problem Solving**. Skilled in building responsive web applications using HTML, CSS, JavaScript, and React. Passionate about leveraging Google Cloud Platform and AWS to develop scalable solutions. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and software engineering principles gained through internships and hands-on projects.

EDUCATION

CMR Engineering College <i>Bachelor of Technology in Information Technology - CGPA: 8.94</i>	Hyderabad, Telangana Sep 2023 – Jun 2027
Sri Chaitanya Junior College <i>M.P.C - GPA: 9.5</i>	Kakinada, AP Sep 2021 – Mar 2023
Sri Chaitanya Techno School <i>SSC - GPA: 10</i>	Pithapuram, AP Jun 2021

TECHNICAL SKILLS

Languages: Java, C, JavaScript, SQL (MySQL), HTML, CSS
Frameworks & Libraries: React, Node.js, Django
Cloud & DevOps: Google Cloud Platform (GCP), AWS, Docker, Travis CI
Tools: Git, GitHub, VS Code, Visual Studio, Figma
Core Competencies: Problem Solving, Data Structures & Algorithms, OOP, Team Collaboration, Adaptability

EXPERIENCE

Uptoskill <i>Web Developer Intern</i> - Designed and implemented mobile-friendly web interfaces with HTML, CSS, and JavaScript following modern UI/UX principles. - Integrated frontend components with backend workflows and REST APIs. - Enhanced website performance, layout, and usability through live project contributions. - Demonstrated adaptability and rapid learning in a fast-paced development environment.	Oct 2025 – Jan 2026
Internship Studio <i>Java Developer Intern</i> - Engineered Java-based solutions emphasizing logical reasoning and problem-solving. - Applied data structures, algorithms, and JDBC for database connectivity. - Implemented OOP principles including inheritance, polymorphism, abstraction, and encapsulation.	Jun 2024 – Aug 2024

PROJECTS

TAU-Net for Post-Earthquake Asphalt Crack Segmentation <i>ViT, TAU-Net, Django</i> - Developed a TAU-Net based hybrid architecture to identify and map asphalt cracks in post-earthquake environments. - Utilized attention mechanisms to filter environmental noise and improve segmentation accuracy. - Integrated the model with a Django dashboard for GPS-tagged damage reporting and maintenance recommendations.	Dec 2025 – Mar 2026
AI-Powered Misinformation Detection System <i>Google Cloud, Node.js, HTML, CSS, JavaScript</i> - Engineered a misinformation detection system using Generative AI models through Google Cloud and Vertex AI. - Provided AI-driven explanations to highlight misleading content and improve digital awareness. - Collaborated using GitHub for version control and contribution tracking.	Sept 2025

CERTIFICATIONS

Google Cloud Career Launchpad <i>Cloud Engineer Track</i>	2026
Uptoskill <i>Web Development Internship Certificate</i>	2026
Internship Studio <i>Java Developer Internship Certificate</i>	2024
